

Teleradiology Specialists provides expert radiology reading for Urgent Care Centers, IDTFs, mobile medical companies and physician practices. With very competitive pricing, high quality physicians, easy-to-use technology, and friendly, professional service we customize solutions to fit the particular needs of our clients. We read for five of the nation's 10 largest Urgent Care Centers, several MRI Centers, Surgical Groups, ENT physicians, and mobile medical companies.

Currently, we read from facilities across 35 states and are licensed to read in 47. Our Group of 48 board certified radiologists are always available directly by phone for immediate consultation. All reports are completed in a timely fashion according to the facility's needs. Average turnaround times are 15 minutes for routine exams and less than 10 minutes for stats (at no premium charge). Reports are customized for each facility and proof read to assure a mistake free, professional product. These are delivered electronically via HIPAA compliant reporting archive or can be set for auto-faxing options. Administrative support includes work-flow coordinators, credentialing services and full service IT.
